

Miniature horse Association of Australia

How to register a prefix.

When registering your stud Prefix please be aware that whatever you put on the form will be what is included in the registration name of your horse

July 14 - Help stud prefix

Remember your prefix is the name that will be added to the name of a horse you have bred so make sure it is not too long or when the pedigree is listed on a registration certificate all the name may not fit on the certificate.

example:

if your prefix is "small farm" that is all you need to put on your Prefix form if you put "Small farm Miniatures" that will be the beginning name of horses you register. example: "Small farm Miniatures she's a pretty girl" so as you can see it is far too long.

Should be

Small farm she's a Pretty girl
